## About me

---

Front-end developer willing and trying to go full-stack. I like seeing the whole picture when I am solving a problem. Not afraid of the terminal.

I am passionate about tech (obviously), and always trying to learn new stuff - currently Go, Node.js, and what it means to be a full-stack developer, besides writing APIs.

On the personal side, I am currently trying more creative hobbies: music, drawing, sewing, writing.

## Technical Skills

---

**Front-end:** React, Next.js, Gatsby, TypeScript, JavaScript, styled-components, Tailwind CSS, HTML/CSS.

**Tools & Platforms:** Git, Vite, Contentful, Ghost CMS, Dynamics 365, TanStack Query, LaTeX, GIMP, Figma.

**Currently Learning:** Go, Node.js, backend development.

## Experience

---

**Joivy**, Developer Specialist, Full-Time

Milan, IT

Jan 2025 - Ongoing

- Planned the dismissal of Contentful by developing automated scripts and establishing new content workflows, reducing the company's CMS costs;
- collaborated on the rebuild of the main company's website (migration from Gatsby to Next.js), contributing to performance improvements.

**Joivy** (former **DoveVivo**), Front-end Developer, Apprenticeship

Milan, IT

Jan 2022 - Dec 2024

- Built a new corporate website using Next.js, adapting to major last-minute design changes;
- led the visual transformation of two major websites during the company's rebranding, transitioning from legacy SCSS to styled-components and refactoring a PHP site's entire CSS architecture for better maintainability;
- led the French language implementation in the main website, by analyzing the existing i18n infrastructure, optimizing the translation workflow, and coordinating with native speakers for content review;
- collaborated on key features for the main website, including the homepages' hero section, and product listing page redesign;
- conducted comprehensive analysis of component libraries for the company's first design system, providing technical recommendations that guided the adoption of shadcn/ui;
- helped improving build time and developer experience across multiple projects;
- documented company processes and applications, that helped with the onboarding of new team members, or the handover of existing projects.

**DoveVivo**, Front-end Developer Support, Internship

Milan, IT

Aug 2021 - Dec 2021

- Built a React webview that handled payments for the company's clients, collaborated with external app developers and back-end team to integrate Stripe payment processing;
- developed a React/TypeScript application for Dynamics 365 CRM, that helped the care team provide better support customers (and learned Typescript in the process);
- created responsive landing pages and performed maintenance on various of the company's websites.

## Certifications

---

<b>edX Verified Certificate for Introduction to Web Accessibility</b> , <a href="#">edX</a>	2025
<b>CSS (Basic)</b> , <a href="#">HackerRank</a>	2025
